

Trung tâm Sống và Học tập vì Môi trường và Cộng đồng (Live & Learn) phối hợp với Bộ Giáo dục và Đào tạo (GD&ĐT) và tổ chức Plan tại Việt Nam xây dựng bộ tài liệu tham khảo hướng dẫn dạy và học về biến đổi khí hậu nhằm lồng ghép nội dung biến đổi khí hậu vào các hoạt động ngoại khóa, thông qua phương pháp dạy và học tích cực.

Bộ tài liệu đã được Bộ GD&ĐT phê duyệt vào tháng 4 năm 2012 gồm 3 tài liệu – sổ tay ABC về Biến đổi khí hậu, Tài liệu hướng dẫn dạy và học về biến đổi khí hậu và Tài liệu hướng dẫn dạy và học về giảm nhẹ rủi ro thiên tai. Đây là các sản phẩm trong nỗ lực hợp tác đầu tiên giữa Bộ GD&ĐT và các tổ chức quốc tế và phi chính phủ về giáo dục biến đổi khí hậu và thay đổi hành vi.

The screenshot shows a Firefox browser window displaying the website [www.livelearn.org/resources/teachers-manual-climate-change-education-vietnamese](http://livelearn.org/resources/teachers-manual-climate-change-education-vietnamese). The page title is "Teachers' Manual on Climate Change Education (In Vietnamese)". The main content area contains a description of the manual, stating it is one of the first specific and concrete teaching manuals to help teachers and students in Vietnam gradually raise their awareness and ability to respond to climate change. It is a timely contribution to help implement the Education Sector's Action Plan for the Vietnam National Strategy, for the period of 2011-2020, in which responding to climate change is a priority. The manual is designed for the Child-centred Climate Change Adaptation project, funded by the Australian Government's Aid Program (AusAID) and developed by the Centre for Live and Learn for the Environment and Community (Live & Learn) and Plan in Vietnam. It has been approved by the Ministry of Education and Training. It draws on various international and Vietnamese educational materials and was created through the valuable contributions of teachers, educational leaders, and climate experts. To view the resource click the link.

On the right side of the page, there is a "DONATE AND DOWNLOAD" section. It features a green envelope icon with a dollar sign and a green document icon with a download arrow. Below the icons, the text reads: "Live & Learn's resources are free to download but we ask you to consider donating to Live & Learn's work. Donations are used to further our work in the field. We can print extra copies of resources and conduct more workshops." Below this, there is a red arrow pointing to a button labeled "Nhấn vào click here". The button is circled in orange. To the right of the button, the text says: "Please click the icon above to go to our donate page." Below the button, there is a "RELATED PROGRAMS" section with a link to "Climate Change" and a "RELATED LOCATIONS" section with a link to "Viet Nam".

ABC Education Book on Climate Change (in Vietnamese)

The ABC Education Book on Climate Change is a guide which helps people learn about climate change and how they can take positive action for the planet. This book presents scientific information in a simple, understandable way for everyone, including both children and adults. Topics such as "What is climate change?" "Climate change impacts" and "What you can do" are illustrated with vivid images and information.

This publication has been produced by Live and Learn for the Environment and Community (Live&Learn Vietnam) in cooperation with Plan in Vietnam and was supported by the Australian Government's Aid Program, AusAID. Together with other climate educational materials, it has been approved by Ministry of Education and Training through a comprehensive consultation process with local teachers, students and educational leaders and climate experts.

Live & Learn's resources are free to download but we ask you to consider donating to Live & Learn's work. Donations are used to further our work in the field. We can print extra copies of resources and conduct more workshops.

Please click the icon above to go to our donate page.

Thanks for your support.
